

Social Emotional Consultation

Helping Children Feel Safe, Connected and Ready to Learn

Social-emotional development is how young children learn to:

- Build relationships.
- Share and play with others.
- Follow routines.
- Manage big feelings.
- Try new things.
- Communicate their needs.

Together, we can help young children feel safe, connected, and ready to learn.

Free social-emotional support for child care providers
and families with children ages 0 to 5.

A Consultant Can Help You:

- Understand what may be behind a child's behavior.
- Create calmer routines and transitions.
- Support staff wellness.
- Strengthen relationships with children and families.
- Build practical strategies that work in real life.
- Connect to resources when more support is needed.

More about consultation

There is no cost to participate.

Consultation is supportive, reflective and practical.

It is not therapy, a diagnosis, a licensing visit or an evaluation.

You do not need a crisis or referral to reach out.

Choose the level of support that best fits your needs (for example, phone, Zoom, or in person, if available).
